

CARTON ACTIVITY

RECYCLING MAZE

PLANTCARTON
Life®

Archie is an empty juice carton... Now that his juice is gone, he is ready to switch up his style and be made into another cool product like notepads or tissue paper. Can you help him find his way to the recycling bin?

REDUCE, REUSE AND RECYCLE.

Cartons can go into the recycling bin in real life too, so make sure you help them get there. To see if your city recycles cartons, ask a parent or teacher to help you check online at: www.recyclecartons.com.

Also make sure to visit www.plantcartonlife.com for more games, activities, and educational materials.

You made it!

Thanks for helping Archie out, he is so excited to start his new life as a recycled product. Who knows, maybe you will see him again someday!
